

## PRESS RELEASE, NEWSFLASH!!

**Professional HomeStaging and Design** continues its growth as a New Jersey franchise opens in Plainfield! While the real estate market has fallen and continues to struggle on its rebound, **Professional HomeStaging and Design** continues to increase revenue.

“Business is coming in so fast, we almost cannot keep up! Staged **Professional Homestaging and Design** homes are outdoing real estate market conditions by as much as 50 percent, and the company’s growth can certainly be attributed to this. The numbers simply cannot be ignored!” says Christine Kennedy, Chief Operating Officer for **Professional Homestaging and Design** Franchise.

“I’m so excited to open up a franchise here in New Jersey!” says Jacquie Wilson, a former pharmaceutical sales representative. “There are so many homes here that can benefit from staging. With today’s market conditions, a seller needs every edge they can get. Staging is a trick that was once only used by the pros, but is quickly becoming the norm in home sales. I cannot wait to get started!”
